It means that what you believe about yourself impacts your success or failure.' Underneath this, it says: 'Successful entrepreneurs possess the following nine qualities:' followed by a numbered list: 1. Determination, 2. Focus, and 3. Drive. Each point has a brief description below it.

- 1. Determination
The refusal to fear failure keeps entrepreneurs going. As setbacks happen, entrepreneurs seek solutions instead of focusing on the negative.
- 2. Focus
Entrepreneurs rarely allow distractions to take their minds off matters at hand. It's a quality that many UAGC students develop in college. As busy students, most are required to balance school with the responsibilities of work and family.
- 3. Drive

CHARACTERISTICS OF ENTREPRENEURIAL MINDSET

Your mindset is a set of beliefs that shape how you make sense of the world and yourself. It influences how you think, feel, and behave in any given situation. It means that what you believe about yourself impacts your success or failure.

Successful entrepreneurs possess the following nine qualities:

1. Determination
The refusal to fear failure keeps entrepreneurs going. As setbacks happen, entrepreneurs seek solutions instead of focusing on the negative.
2. Focus
Entrepreneurs rarely allow distractions to take their minds off matters at hand. It's a quality that many UAGC students develop in college. As busy students, most are required to balance school with the responsibilities of work and family.
3. Drive
Entrepreneurs are driven to make their ideas work, so much so that they develop daily habits in order to remain on track.
4. Decisiveness
When you're the head of an entrepreneurial venture, everything falls on you. Time is money, so the ability to make rational decisions quickly can help an entrepreneur avoid wasteful thoughts and actions.
5. Independence
Though networking plays a big part in sharing ideas and gaining perspective, entrepreneurs are very comfortable taking matters into their own hands. The need for independence is one of the reasons why a person who has already enjoyed a long career in business may break from their company to strike out on their own.
6. Authenticity
There is a genuineness to entrepreneurs; they're not phonies. Even if people don't always believe in their ideas, you cannot question their passion for what they are hoping to create.
7. Flexibility
9-to-5 is not really an option for entrepreneurs. They're thinking about their ideas 24/7, and have no qualms about getting down to work at any time of the day or night. It's a trait they share with UAGC students who are perfectly comfortable finishing a paper after the kids have gone to bed, or reading the chapter of a book on their phones during their lunch breaks.
8. A Thirst for Knowledge
Entrepreneurs have a natural desire to learn, and this is what often drives them to earn their degrees.
They have ideas, but they recognize that much more information is needed to bring those ideas to
